

Koschetzki

Artists Statement:

Multi medium ceramic artist Fred Koschetzki describes his work as "an exploration of his life dream". In his work the "meditative act of creating is the paramount inspiration, regardless of medium".

He works from his studio in the Catskill Mountains NY. "A peaceful corner of the world."

Teaching Statement:

"As an educator it is my commitment to present art in a broad world context and support my students in the development of these learning goals: an expansion of skills, a perception of form and an awareness of a personal language.

A key component is using my years of knowledge as a guiding force steering students towards fulfilling a rewarding connection with art throughout their lives.

Teaching has enriched my life."
